

CODE: P80800x
Item: Composite insulator

PRODUCT TECHNICAL SPECIFICATION

Description: Composite insulator is designed for tension or suspension support of non-insulated medium voltage conductors up to 24 kV. Insulator break down voltage in dry condition is 155 kV while in wet condition is 70 kV.

No.	Code	Type	Dimension (mm)	Number of ribs	Breaking voltage (dry)	Breaking voltage (wet)	SCL (kN)	Weight (g)	Barcode
			L						
1	P80-80-01	CS100-170-552	370	5	170kV	84kV	100	1130,00	 8605031040371
2	P80-80-02	CS100-205-765	430	7	200kV	90kV	100	1360,00	 8605031040388

Other characteristics

Body material: Two-component polymer / Hot-dip galvanized steel / UV resistant plastic
