

**Item:** Three-pole NV horizontal fuse-disconnector 630 A

## PRODUCT TECHNICAL SPECIFICATION

**Description:** Three-pole NV horizontal fuse-disconnector 630A is intended for overload protection, short-circuit protection and disconnection of electrical circuits under load.

| No. | Type          | Nominal current (A) | Nominal operating voltage (V) | Nominal frequency | Nominal active power (W) | Fuse size |
|-----|---------------|---------------------|-------------------------------|-------------------|--------------------------|-----------|
| 1   | ROP 3P 3 630A | 630                 | 400 / 690                     | 50 / 60           | 60                       | NH 630    |

### Other characteristics

**Body material:** Weather and UV resistant Polyamide

**Bolt / Washer:** Galvanized Steel

**Required tools:** Appropriate size wrench

**Stepen zaštite:** IP 4X

**Marking:** Manufacturer's mark, Nominal current, Nominal voltage, Type, Nominal active power, Nominal frequency, Nominal thermal current

**Standard:** SRPS EN IEC 60947-1; SRPS EN IEC 60947-3; SRPS EN IEC 60947-5-1; SRPS EN 60060-1; SRPS EN 60529; SRPS EN 60695-10-2; SRPS EN IEC60695-10-2;
